

Mea

Because postpartum care shouldn't stop at birth

1 in 7 women
experience postpartum depression

Yet most women
receive little to NO help

The Postpartum Care Gap

No Consistent Follow-Up Care

Mothers often see a doctor **only once, at 6 weeks postpartum**

Delayed Mental Health Support

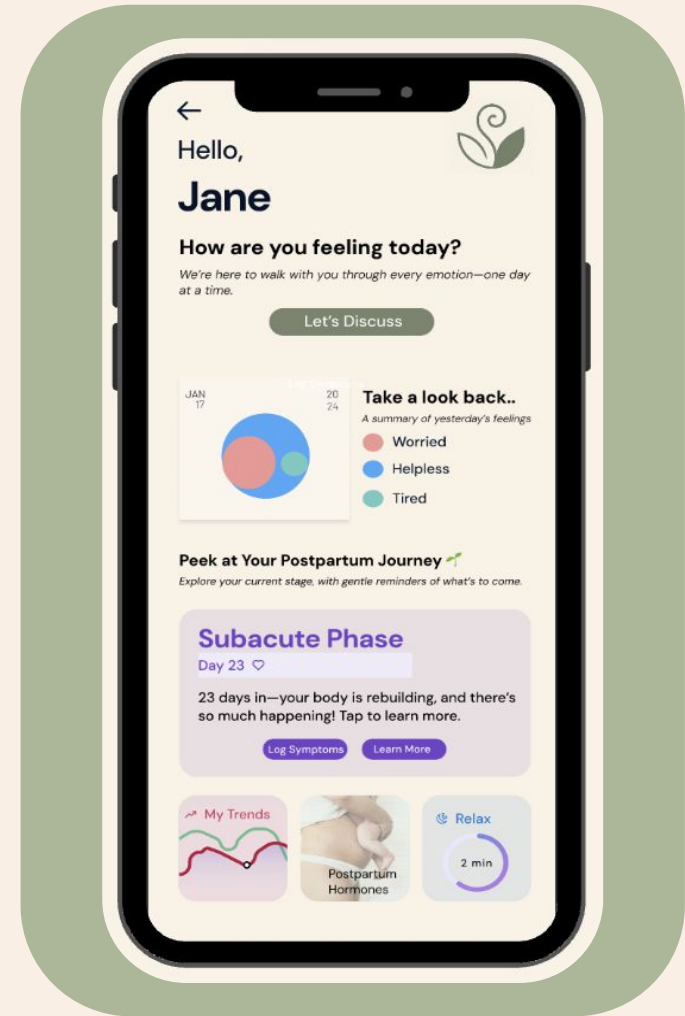

Less than half of postpartum mental-health cases receive timely follow-up care

Lack of Preparation

Education focuses on the **baby**, not the **mother's recovery or emotions**

A Digital Platform Bridging Postpartum Gaps

Community • Tracking • Education

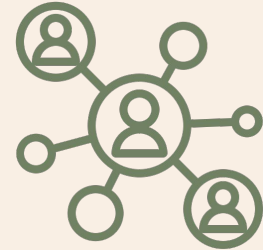

What Are We Building?

Daily Emotion
Tracking & Journaling

Virtual Sessions with
Clinicians

Peer Community &
Resources Hub

Meet the Team Building Mea

Khali Abdi

Community First Launch Strategy

Present

→ Early validation through **20+ stakeholder interviews**

Pilot

→ WhatsApp-based community to **validate engagement**

→ Weekly **expert-led** sessions with clinical partners

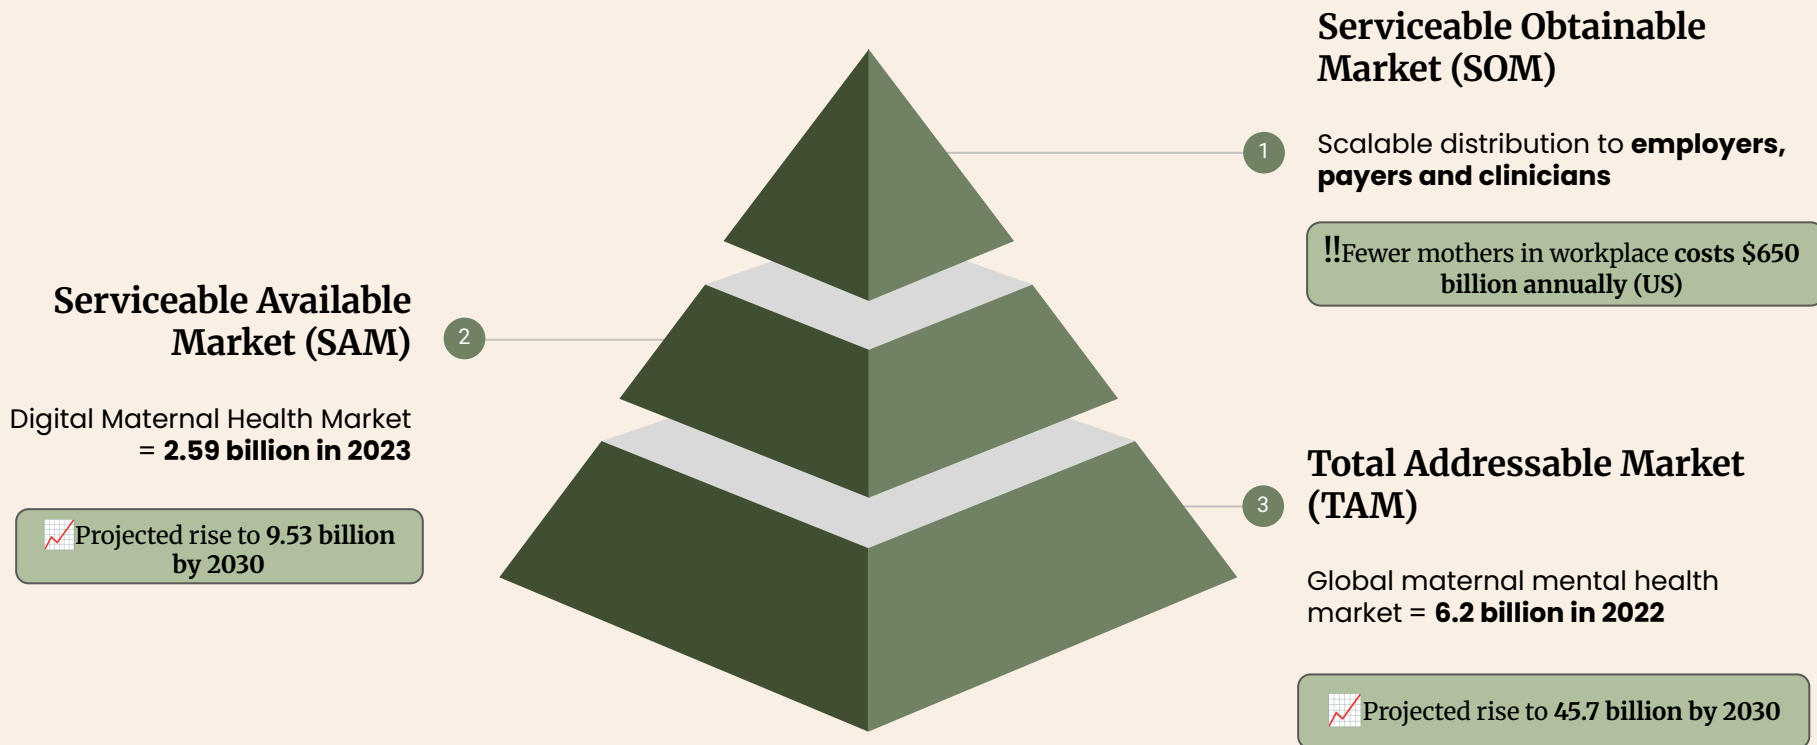

Beta Platform

→ Early testers get **exclusive access** to Mea's emotion tracking and journaling features

Launch

→ Collect **qualitative & quantitative data** to inform platform design

Market Opportunity

Monetization Roadmap

Phase 1 Short Term

**Freemium +
Mission-Aligned Grants**

→ To **reduce barriers** and
fund early engagement

Phase 2 Mid Term

**Clinician + Partnership
Model**

→ Generate **recurring
revenue** from aligned
partners

Phase 3 Long Term

**Employer + Insurer
Coverage**

→ Scale access through
covered postpartum care

THE GOAL → Mea LOW-COST or FREE for every mother

Perfect Timing for Postpartum Innovation

Digital Health Adoption

Explosion of virtual
care models enables
scalable solutions

Employer & Insurance Engagement

Insurers are investing in
maternal health
benefits

Consumer Behavior Shift

Millennial and Gen Z
parents demand
holistic, tech-enabled
solutions

High-potential Market

Postpartum care is a
blue ocean market
